DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Aslam A. Jaffery with Registration Number 51,841 on 11/04/2008. According to the Attorney's telephonic discussion, Applicant agreed to amend independent Claim 1.

The application has been amended as follows:

1. (Currently Amended)

Please replace "certificate of the second party of the second party" in line 25 such as **certificate of the second party**.

Allowable Subject Matter

2. Claims 1, 3-6, 11, 26, 28-31, and 33-35 are allowed.

The following is an examiner's statement of reasons for allowance: Any prior art of the record does not teach or suggest alone or in combination with other prior art of record the specific features required in the independent Claims 1, 11, and 26 such as "authenticating the request in accordance with a pre-defined authenticating policy associated with the digital certificate of the second party, and generating an

Art Unit: 2435

authorization certificate by a revoker of digital certificates, wherein the authentication certificate is associated with the request to ensure the request is authenticated in accordance with the pre-defined authentication policy, the authentication of the request including verifying a digital signature incorporated in the request with a list of the digital certificates previously defined as revoker certificates for a website; sending the authorization certificate to the first party, wherein the first party to receive the authorization certificate; revoking the digital certificate of the second party in accordance with a revocation policy; and initiating communication with the first party to indicate that the digital certificate has been revoked, wherein the communication includes notifying the first party that the digital certificate digital certificate of the second party has been revoked, wherein the notification is further sent to other parties registering with the database as replying on the digital certification of the second party” recited in the independent Claim 1. The prior art taken either single or in combination fails to anticipate or fairly suggest the above limitations of applicant’s independent claims in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Therefore, the claimed invention is considered to be in condition for allowance as being novel and non-obvious over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
